**384-**  
DAY CAB

A **PACCAR** COMPANY

# MODEL 384- DAY CAB

The Peterbilt Model 384 matches powerful performance with exceptional maneuverability and versatility. It's ideal for tanker, pickup and delivery, regional, and short haul applications. The Model 384 features a 116" BBC, and offers a full range of heavy duty suspension, brake and drivetrain options. The Model 384 is exceptionally lightweight and powerful for easy handling of the heaviest payloads. In the city or on the highway, Peterbilt quality and resale value have never looked better.

A **PACCAR** COMPANY

The signature Peterbilt fuel cap is mounted to a precision-crafted aluminum fuel tank, and is a distinctive representation of the outstanding fuel economy of the Model 384.

A sloped hood with swept-back fenders and integrated headlamps features a stainless steel grille with chrome surround and standard chrome bumper for aerodynamics with a touch of class.

The sloped hood and high-intensity forward lighting system provide improved visibility. The tough Lexan® lens is impact resistant and no special tools are required for lamp adjustment or bulb replacement.

A lightweight all-aluminum cab with huckbolt fasteners, lap seam construction and bulkhead style doors is the leader in toughness, corrosion resistance and water-tight performance.

A new chassis design features optimized front axle placement for excellent maneuverability and handling. Components are positioned for convenient access to key service points.

A contoured sunvisor was designed using Computational Fluid Dynamics and extensive wind tunnel testing. A two-piece windshield allows for cost-efficient glass replacement.

Peterbilt's proprietary new Front Air Leaf Suspension is lightweight and features a 20 percent improvement in ride quality over taper leaf suspensions for an extremely soft ride.

Two engine options are available on the Model 384 Day Cab which include the Caterpillar C13 and the Cummins ISM for HP ratings of up to 470 HP.

The versatile Model 384 Day Cab combines maneuverability with high performance and durability. For more information on the Model 384 Day Cab, contact your local Peterbilt dealer, visit [www.peterbilt.com](http://www.peterbilt.com) or call 1-800-552-0024.
